Diabetes Conference ^{New}

31 Jan - 1 Feb 2024 | Dubai World Trade Centre

Theme:

Charting new horizons in diabetes care

Overview:

Immerse yourself in the forefront of diabetes care at the Diabetes Conference 2024, a two-day transformative event scheduled from January 31st to February 1st 2024. This conference presents an unparalleled opportunity to explore an extensive range of pivotal subjects that define diabetes management and chart new pathways for the future. From comprehending the urgency of youth-onset Type 2 Diabetes and combating the diabetic pandemic from a public health perspective, to harnessing cutting-edge technology like closed-loop systems, continuous glucose monitoring (CGM), and insulin pump therapy across the spectrum of Type 2 Diabetes, the conference ensures a comprehensive understanding of these critical areas.

Delve into the intricate connection between diabetes and cardiovascular health, unveil the potential of novel therapeutics like Tirzepatide, explore the latest in diabetic kidney disease treatments, and unlock the potential of AI and decision support systems.

Don't miss this opportunity to network with experts, gain invaluable insights, and contribute to shaping the future of diabetes care. Register now to secure your place at this pivotal event and be at the forefront of revolutionising diabetes care.

What's new:

- Focus on key issues in Diabetes
- Case study presentations

Key topics:

- Standards of medical care in diabetes 2024
- Closing the loop: Current status and future directions
- A new era in type 2 diabetes management: Results of real-world study of the use of Tirzepatide
- Diabetic kidney disease: New therapeutic approaches
- Heart Failure and Diabetes: A Complex Connection
- Advances in Stem Cell Therapy in Type 1 Diabetes

Benefits of attending:

- Discuss the most recent advancements, from the urgency of youth-onset Type 2 Diabetes to the potential of AI in diabetes care, and diabetes management.
